Tate Modern is an art gallery with 88 rooms of twentieth and twenty-first century art. The exhibitions change, so there is always something new. There are paintings by Matisse, Picasso, Jackson Pollock, Mark Rothko, Andy Warhol and many more.

St Paul's Cathedral is in the centre of the City. Its dome is 110 metres high, and it is the second biggest dome in the world, after St Peter's in Rome.

The two bells in the tower are called Great Paul and Great Tom. Great Paul is the biggest bell in the United Kingdom. Great Tom rings every hour, and it also rings when a king or queen dies.

Air travel

The USA is a big country and air travel is central to American life. Planes are more popular than trains and air travel is usually cheap, although prices are higher in the summer and during holidays such as Christmas and Thanksgiving. The number one airport in the USA is O'Hare Airport in Chicago. 180,000 people arrive and depart from there every day.

The British Museum in Great Russell Street is the biggest museum in Britain and the oldest museum in the world. It dates from 1759. There are 94 galleries (it is a four-kilometre walk through all these galleries), a reading room, and bookshops. At the centre of the building is the beautiful Great Court.

John Fitzgerald Kennedy
(or JFK) became the 35th president of the USA in 1961. He was only 46.
He was an Irish-American from a famous family. He was very handsome and he had a beautiful wife. Kennedy was a great leader and he began to change the USA. He wanted to give equal rights to all Americans. He was assassinated in Dallas in November 1963.
